

Ryan Insurance Group

Company Profile

One of East Anglia's leading insurance brokers with over 30 years in business, providing insurance solutions for private individuals up to and including large corporate companies.

- 4 sites including head office in Ipswich.
- Part of the Unitas alliance.
- **Data and Voice Requirements** – an agnostic solution
- Use Powercorporate Broadband connections for inter-office communication, including voice – Avaya IP Office PBX - and data (terminal services).

Their bandwidth requirements had resulted in the need for multiple connections at each site. A successful deployment of Vibe has resulted in a single converged network which supports both data and multiple high quality voice calls over single broadband connections at each "remote" site.

Client Testimonial

"Powernet have worked with us to understand our business priorities and tailor their solution for a network of our size and technical requirements. They have resolved some inadequacies left behind by a previous supplier in respect of VoiP telephony, acting very quickly when our customer service was affected.

I have been very pleased with the proactive management of our relationship where their recommendations have improved our experience and reduced costs. I have great confidence in Powernet's ability to meet our future needs and would have no hesitation in recommending their service."

Trevor Ward, Central Services Director
Ryan Insurance Group Ltd

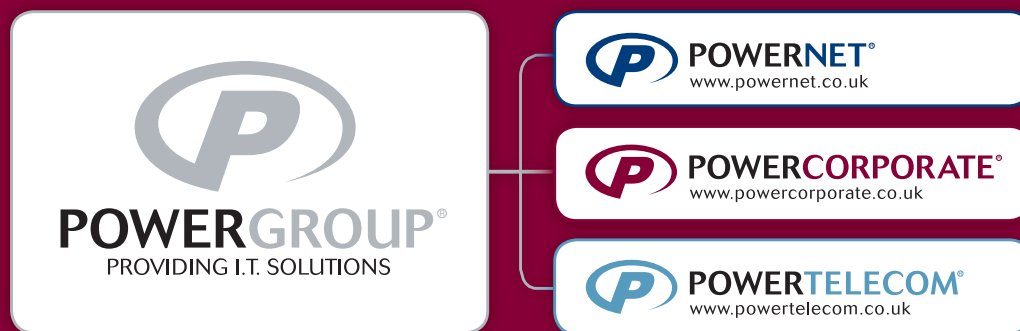

"I have been very pleased with the proactive management of our relationship where their recommendations have improved our experience and reduced costs."
